Working experiences

Self-employed training experience:

I have been designing seminar concepts and providing training for a variety of national and international companies in Austria, e.g. for :

Chamber of Commerce of Styria

Mc Donald's Franchise GmbH

J. Hornig Kaffee und Tee

ASKÖ and Sportunion, the two biggest sports organizations of Austria

AUVA

University of Graz

and many more companies from different regions and industries (automotive, tourism, trade, service, construction, craft professions and so on...)

So I am very familiar with a high bandwidth of students, from hard worker to academic and from young to old.

Another part of my work deals with coaching and counselling individuals, especially in the field of personal growth and learning strategies.

Very successful and encouraging events are the annual "Train The Trainer" workshop series (main theme: Birkenbihl concepts) where we work in small groups and on a very high level. Feedback always reports an enormous progress in the attendants' training performances.
